

Meet Mitzvah Martin

Mitzvah is a part of the RMHS Service Coordination department. She and her team support individuals with intellectual and developmental disabilities to identify their goals and access services. For her, being a service coordinator means being on call for people. It means being available for people when their needs change, when they have emergencies and when they want to celebrate milestones and achievements.

Mitzvah was drawn to this work because she is passionate about helping people through nonprofit work. The RMHS mission and values appealed to her and she loves the team and the people on her caseload. Since she started with RMHS in December 2019, she has found the work to be incredibly rewarding.

“Being able to see people achieve their goals and being a small part of that is a truly amazing experience,” Mitzvah said.

All case managers know that each day brings new challenges, but it also brings new opportunities and new rewards.
